

If

This machinery of love and hate It worked just fine
Someone told me he heard someone say I should move on

We laughed, we cried we failed, but we tried
But I won't give up for now
Promise me one thing that

**If For no reason at all You love me no more
Tell me I wanna know, I wanna know
If For no reason at all You love me no more**

This machinery we don't talk about it It's worn down
Whose if as it was Guess we'll never know We'll never know

We laughed, we cried we failed, but we tried
But I won't give up for now
Promise me one thing that

**If for no reason at all You love me no more
Tell me I wanna know, I wanna know
If for no reason at all You love me no more**

Tell me I wanna know I wanna know I gotta kno-ow

And it all feels so unreal But I won't give up

**If for no reason at all You love me no more
Tell me I wanna know, I wanna know
If for no reason at all You love me no more**

Tell me I wanna know I wanna know

**If for no reason at all OOOh OOOH
Tell me I wanna know, I wanna know
If for no reason at all You OOOH OOOH**

Tell me I wanna know I wanna know

I gotta kno-ow

I gotta kno-ow
