

Little submarine

**Do you wanna come along
In my little submarine?
I thought love was never meant for me
When you found me lost at sea**

I wanna go far away from here
Travel the world and disappear
Get a chance to start all over
Take a trip to paradise

Is there a place in this world where I'm feeling free?
Open new doors, throw away the key
We could walk a little slower
We could start a better life

**Do you wanna come along
In my little submarine?
I thought love was never meant for me
When you found me lost at sea**

It doesn't matter where we go
Follow the ocean, see it glow
Take your time to rediscover
Take your time to find new light

**Do you wanna come along
In my little submarine?
I thought love was never meant for me
When you found me lost at sea**

**Do you wanna come along
In my little submarine?
I thought love was never meant for me
'Til you found me lost at sea**
